BGLOBAL PLC
(“Bglobal” or “the Company” or “the Group”)

PATENT PENDING FOR BGLOBAL’S SMART1 METER

Bglobal plc (AIM:BGBL) the market-leading provider of smart metering solutions to the UK energy market is pleased to announce that it has filed a patent application with the UK Intellectual Property Office for its new design of electricity meter, the Smart1.

Bglobal’s innovative design allows the meter to function as a smart meter or to be installed smart-ready where communications capability can be applied at low cost at a future date. The Smart1 offers comprehensive functionality required by the SME and residential markets such as the ability to operate with Home Area Network (HAN) devices including hand held displays.

Group Chief Executive Tony Barnes commented: “Extensive market research, consultation with major energy suppliers , plus Bglobal’s unrivalled in-the-field experience have come together in an innovative new meter design which the Company believes is ideally suited to the UK small business sector and residential roll out programme. We are keen to ensure that new intellectual property that we have created is properly recognised.”
