BGlobal signs agreement with Schuh Limited to roll out smart meters at all UK stores

Bglobal plc (AIM: BGBL), the leading smart metering and energy data services company, announces that it has signed an agreement with Schuh Limited ("Schuh"), the high street shoe retailer, to install smart meters at all of its UK stores.

The installation programme is planned to commence by the end of October 2009. As part of its strategic commitment to reduce its energy consumption, the smart meters will allow Schuh to precisely monitor its energy usage, enabling it to effectively manage its overall consumption and control costs.

Anthony Barnes, Group Chief Executive of Bglobal commented: "Schuh join a growing list of high street companies who have chosen Bglobal to provide smart meter services due to the responsiveness and flexibility of our software and we expect initiatives such as the Government's CRC programme to further drive demand over the coming months."
